CAREER SUMMARY SO FAR

I am a Frontend Developer with 4+ years of experience, specializing in React.js, Next js and modern web technologies. I work on building fast, responsive websites with frameworks like Next.js and Gatsby. I have contributed big projects, enhancing digital experiences. Passionate about continuous learning, I focus on delivering high-quality, user-focused solutions.

EXPERIENCE

- **Klynetech Media Pvt Ltd. (Infino Digital)**
  Frontend Designer/ React Developer (Full-time) — *Oct 2024 - Present*

  As a Frontend Designer/ React Developer at Klynetech, I specialize in React.js and modern frontend technologies. I've worked with Headless CMS using Gatsby.js and design Next js projects. Key projects include developing a fast, responsive UI for **Amerijet Airlines**, a global cargo airline. I also contributed to **SrveUp**, a platform helping restaurants improve their digital presence, by building an engaging and responsive website with React js, Gatsby, Next js and Tailwind CSS. **3+** Custom Design Wordpress websites.

- **Rocky Mountain Technologies Pvt. Ltd.**
  Frontend Designer/Developer (Full-time) — *July 2021 - Sep 2024*

  I have 2 years of experience in React, after spending 1 year as a WordPress developer at Rocky Mountain Technologies India Pvt. Ltd. I transitioned to React.js through self-study and mentor guidance, building new projects and expanding my skills. During my time with WordPress, I created over 30 websites, gaining hands-on experience in web development.

SKILLS SUMMARY

- **Languages**: HTML, CSS, Tailwind, JavaScript, TypeScript
- **Frameworks and Libraries** : React.js, Next.js, Gatsby, Bootstrap, Material UI, Redux, Redux Toolkit, Axios, React Query, Socket.Io
- **Tools**: GIT, Postman, Photoshop (Basic)
- **CMS**: Wordpress (Dashboard, Frontend)
- **Soft Skills**: Team Player, Active Listening, Public Speaking, Time Management

REACT, NEXT, GATSBY PROJECTS

- **Amerijet International Airlines (Tech: Gatsby, Tailwind, Wordpress)**: Built a 55+ page website for Amerijet, a global cargo airline with over 50 years of experience. Used Gatsby (React.js) and WordPress as the backend via REST APIs. Handled UI/UX design, forms, validations, and dynamic features like shipment tracking and more.
- **SrveUP (Tech: React, Gatsby, Tailwind, Wordpress)**: Developed the frontend of SrveUp's restaurant-focused platform using React.js, Gatsby, and Tailwind CSS. Created a visually appealing, responsive website to enhance the online presence of restaurants and drive customer engagement.
- **Vendor Management System (Tech: Next.js, Mui, Web-Socket)**: A Vendor Management System built with Next.js, MUI, APIs and WebSocket to help committees compare supplier quotes for construction and manufacturing materials, making vendor selection faster, transparent, and more efficient.
- **Food Ordering Management Software (Tech: Next.js, Mui, APIs Web-Socket)**: This project is a multi-level store management system with three roles: Super Admin, Store Super Admin, and Loop Admin. Super Admins manage main branches, Store Super Admins handle city-level outlets, and Loop Admins run smaller local branches. The system supports smooth order tracking, food item management, and billing across all levels.
- **Kitchen Display System Software (Tech: React.js, APIs Web-Socket)**: KDS is a React-based system for restaurants that shows real-time orders to chefs. They can customize items and mark them as "Ready to Pick" for online pickup, helping make kitchen work faster and easier.
- **Selfmade Projects (Tech: React.js, Bootstrap, Mui, HTML, CSS, JavaScript and Firebase)**: 1.Personal Portfolio, 2.Netflix Sign Up/Login and Home page, 3.E-commerce Grocery Store

  1.Personal Portfolio 2.Netflix 3.G Mart Store

EDUCATION

- **LPU** — Ludhiana, India
