Career summary so far

I aim to utilize my web development skills to create impressive websites and contribute to your company's growth. With a strong focus on user experience and innovative design, I'm committed to delivering quality results. Drawing from my experience and successful projects, I'm excited to be a valuable asset to your team and help you achieve online success. I am excited about the opportunity to bring my web development skills to your respected company, contributing to its success through innovative website solutions.

Skills Summary

- **Languages**: HTML, CSS, JavaScript, TypeScript
- **Frameworks and Libraries** : React.js, Next.js, Gatsby, Bootstrap, Material UI, Redux, Redux Toolkit, Axios, React Query, Socket.Io
- **Tools**: GIT, Postman, Photoshop (Basic)
- **CMS**: Wordpress
- **Soft Skills**: Team Player, Active Listening, Public Speaking, Time Management

Experience

- **Klynetech Media Pvt Ltd. (Infino Digital)**
  Frontend Designer/Developer   *Oct 2024 - Present*

  At Klynetech, I work as a Frontend Designer/Developer specializing in React.js. During my time here, I have expanded my skills in modern frontend technologies and gained experience working with Headless CMS using the Gatsby.js framework, with WordPress serving as the backend. One of my key contributions was developing a major project for Amerijet Airlines, a global cargo airline focused on international import and export operations. In this project, I was responsible for creating a fast, responsive, and scalable user interface

- **Rocky Mountain Technologies Pvt. Ltd.**
  Frontend Designer/Developer (Full-time)   *July 2021 - Sep 2024*

  I have 2 years of experience in React, after working for 1 year as a WordPress developer at Rocky Mountain Technologies India Pvt. Ltd., I decided to explore a new programming language React.js, I started new projects, where I learned React.js through self-study and received guidance from experienced mentors. This journey expanded my skills and demonstrated my dedication to ongoing learning. During this time, I learned a lot about creating creative websites using WordPress. I had the chance to build more than 30 websites

React Projects

- **Vendor Management System (Tech: Next.js, Mui, Web-Socket)**: The Vendor project facilitates the selection of construction material, manufacturing things suppliers by providing competitive pricing. Committee members convene to review and select vendors based on their quotations. This project aims to streamline the vendor selection process while ensuring transparency and efficiency.

- **Food Ordering Management Software (Tech: Next.js, Mui, Web-Socket)**: This major project features a hierarchical store management system with three panels: Super Admin, Store Super Admin, and Loop Admin. Super Admins create main restaurant branches, while Store Super Admins manage mini branches within the city. Loop Admins oversee small branches created by Store Super Admins. The system enables seamless order management across all levels, with upper stores able to monitor lower-level order and billing details. It includes a comprehensive product management system for various food items, allowing customization and integration with the website, POS, and mobile app for customer orders.

- **Kitchen Display System Software (Tech: React.js, Web-Socket)**: The KDS (Kitchen Design System) is a React. Js-based application that optimizes kitchen operations in restaurants. It displays real-time orders for chefs to review and prepare. Chefs can customize orders with variants, toppings, sauces, etc, and mark them as "Ready to Pick" for online pickup. The system facilitates seamless order tracking, from preparation to completion, enhancing efficiency and accuracy in food service.

- **Selfmade Projects (Tech: React.js, Bootstrap, Mui, HTML, CSS, JavaScript and Firebase)**: 1.Personal Portfolio, 2.Netflix Sign Up/Login and Home page, 3.E-commerce Grocery Store

  1.Personal Portfolio 2.Netflix 3.G Mart Store

Education

- **LPU**   Ludhiana, India
  BSc.IT, Information Technology   *2022 - 2025*

- **G.N.D.E.COLLEGE Step (Science - Technology Entrepreneurs), Ludhiana**   Ludhiana, India
  Web Development Course   *January 2021 - June 2021*
